An Introduction to Armor Holdings, Inc.

ArmorHoldings Products Division

Armor Holdings Products division manufactures and sells a broad range of high quality branded law enforcement equipment, such as ballistic resistant vests and tactical armor, duty gear, bomb disposal equipment, less-than-lethal munitions, anti-riot products including tear gas and distraction grenades, narcotics identification kits and custom-built armored vehicles.

These products are marketed under brand names which are well-known and respected in the law enforcement community such as American Body Armor, Safariland, Defense Technology, First Defense, MACE, Pro-Tech and NIK. Armor Holdings Products division sells manufactured products primarily to law enforcement agencies through a worldwide network of over 500 distributors and sales agents including approximately 350 in the United States. Extensive distribution capabilities and commitment to customer service and training have enabled Armor Holdings Products division to become a leading provider of security equipment to law enforcement agencies.

Armor Holdings Mobile Security Division

Armor Holdings Mobile Security division, through its Commercial Products division, armors a variety of vehicles, including limousines, sedans, sport utility vehicles, and money transport vehicles, to protect against varying degrees of ballistic and blast threats. Through its Military Products division, it is the prime contractor to the U.S. Military for the supply of armoring and blast protection for High Mobility Multi-purpose Wheeled Vehicles, commonly known as HMMWVs.

The flagship company of the Mobile Security division is O'Gara-Hess & Eisenhardt Armoring Company, the world's largest, and most experienced passenger vehicle armoring manufacturer. It serves customers in eighty countries on five continents. The company has provided mobile security for more than sixty international heads-of-state, every U.S. President since 1948, numerous U.S. government agencies, the U.S. Army, and the U.S. Air Force.

Defense Technology / Federal Laboratories

An Armor Holdings Company

Defense Technology/Federal Laboratories is dedicated to producing the safest and most reliable less lethal solutions products on the market. One of the facets that separates DT/FL from others in the industry is its commitment to product integrity, training and research. By placing a strong emphasis on product controls, DT/FL ensures it is providing a quality product to the marketplace and minimizes the potential for defects or workmanship errors.

**DEFENSE TECHNOLOGY

An Introduction to Armor Holdings, Inc.

Executive Team

Jonathan M. Spiller has served as our Chief Executive Officer since September 1993, and as our President and as a director since June 1991. From June 1991 to September 1993, he served as our Chief Operating Officer. Prior to joining American Body Armor, now Armor Holdings, Inc., Mr. Spiller served as a partner with Deloitte & Touche LLP, an international accounting firm, where he worked for 18 years. Prior to that experience, Mr. Spiller served as Senior Vice President and Chief Financial Officer of Hunter Environmental Services, Inc., an environmental services company. Mr. Spiller is a chartered accountant and a certified public accountant.

Robert R. Schiller, recently appointed as Chief Financial Officer, has served as Executive Vice President and Director of Corporate Development since January 1, 1999, and as Vice President of Corporate Development from July 1996 to December 1998. Prior to joining Armor Holdings, Mr. Schiller served as Chief Financial Officer of Troma, Inc., an independent film studio. From 1994 to July 1996, Mr. Schiller was a principal in the merchant banking firm of Circadian Capital Corporation and from 1993 to 1995, he was a director of corporate finance for Jonathan Foster & Co. L.P., an investment banking and financial advisory firm.

Stephen E. Croskrey joined Armor Holdings, Inc. as President and Chief Executive Officer of the Products Division in February 1999. From 1998 to February 1999, Mr. Croskrey served as Director of Sales for Allied Signal, Inc.'s \$600 Million Performance Fibers Division. From 1988 to 1998, Mr. Croskrey served in various positions for Mobil Oil's Lubricant Division, most recently as Manager of the Central Region, a \$180 million business. Prior to 1988, Mr. Croskrey spent six years in the US Army as a Captain. During this time he served as a Company Commander in Korea and Ft. Lewis, Washington.

LESS-LETHAL PROGRAMS

Get Certified - Increase your department's success and reduce liability.

The Armor Training Academy provides the most up-to-date and comprehensive training programs available. We offer multiple less-lethal programs that will enhance individual skills and provide solutions for criminal justice and privately licensed security personnel.

All of these programs focus on the understanding and contemporary application of our products in real-world scenarios. Our instructors have law enforcement, corrections and/or military backgrounds. We combine classroom lessons with practical demonstrations of our less-lethal products.

Our hallmark course is the 5-Day Instructor Certification Program (ICP). This course, plus our other less-lethal programs, provide the necessary training for our changing world. Check our calendar for a complete listing of our courses.

**DEFENSE TECHNOLOGY
FEDERAL LABORATORIES™**
An Armor Holdings Company

5-Day Instructor Certification Programs (ICP)

Instructor Certification: The Instructor Certification is valid for 24 calendar months from testing date, which allows the student to provide in-service training in the specific areas of certification. The student will acquire a general working knowledge of Defense Technology/Federal Laboratories products, both technically and tactically, providing them with the skills necessary to conduct in-service training.

Prerequisites: All students must be a sworn law enforcement or correctional officer, a state licensed security officer, or active military personnel. These courses are not available to civilian personnel. Each attendee must be physically fit for duty and able to perform the physical skills associated with tactical applications with the use of these products.

Recertification: Within 30 days of the certification's expiration date, the student may attend an appropriate recertification program.

Course Outline:

OC-ICP Oleoresin Capsicum Aerosol Projectors

Day 1 \$100.00

- Oleoresin Capsicum Formulations / Carriers
- Projectors / Propellants / Delivery Systems
- Effectiveness / Safety / Liability Factors
- Criteria for Selection
- Operational Guidelines / Practical Exercises
- Decontamination / First Aid
- Officer Survival Techniques
- Criminal and Civil Liabilities
- Sample Policy and Procedures
- Instructor Development to Establish In-House/In-Service Training & Documentation Skills
- Intergraded Use of Force Options
- Deployment Methods
- Tactics for Surviving an OC Attack
- Contamination Exercises

SM-ICP Specialty Impact Munitions

Day 2 \$275.00

- Introduction to Specialty Impact Munitions
- Weapons and Munitions: 12ga. / 37mm / 40mm
- Single Projectiles / Multiple Projectiles
- Operational Considerations - Skip Fire / Direct Fire
- Crowd Control Considerations (open & contained)
- Single Target Acquisition / Dynamic Entry Support
- Physiological / Psychological Effects
- Incident Case Studies / Liability Consideration
- Test Data: Blunt Trauma / Ballistics & Energy
- Development of Policy and Procedures

- Live Firing Exercises / Operational Scenarios
- Documenting Training / In-Service Training
- Instructor Development to Establish In-House/In-Service Training & Documentation Skills

DD-ICP Distraction Devices

Day 3 \$350.00

- Introduction to Explosives
- Distraction Devices: Types and Nomenclature
- Reloadable & Non-Reloadable Devices
- Decibels / Candela / P.S.I.
- Overpressure: Cause & Effect / Anderson Blasgase
- Handling / Storage / Rendering Safe
- Tactical Deployment / Safety Considerations
- Incident Case Studies
- Criminal and Civil Liabilities
- Development of Policy and Procedures
- Gripping, Handling and Deployment Drills
- Live Firing Exercises / Operational Scenarios
- Instructor Development to Establish In-House/In-Service Training & Documentation Skills

CM-ICP Chemical Munitions (CN / CS / OC / Smoke)

Day 4 / Day 5 \$350.00

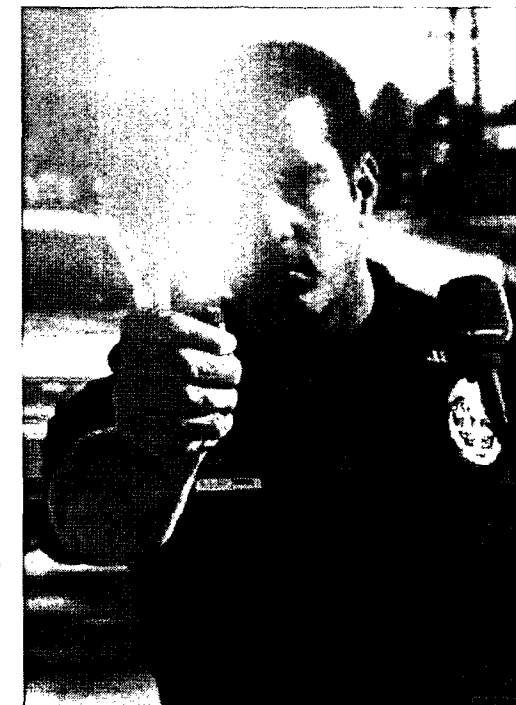

- Types and Forms of Chemical Agents
- Technological Advancements in Pyrotechnics, Blast, and Aerosol Munitions
- Escalation of Chemical Deployment
- Crowd Control Principles / Outdoor Considerations
- Barricade Subject / Space Denial
- Powder OC / CN / CS
- Incapacitating and Lethal Dosages (lct50-Lct50)
- Hands-on Training with Tactical Deployment with Hand Held Grenades and 37 mm Launchers
- Techniques and Tactical Considerations
- Live Fire Exercises
- Decontamination / First Aid
- Protective Masks (Vision Impaired and Oxygen Depletion Drills)
- Criminal and Civil Liabilities
- Sample Policy and Procedures
- Instructor Development to Establish In-House/In-Service Training & Documentation Skills

All 5-Days - Monday - Friday \$895.00

Are you interested in becoming a Host Agency for Less-Lethal Courses and receive complimentary slots?

Host agencies receive complimentary slots based on enrollment for our regular 5-day ICP. Minimum enrollment is 12 students for the full 5 days and hosts receive 2 free slots (\$1,790 value). If there are 14 students for the 5 days, hosts receive an additional slot (\$895 value).

Monadnock is a well-respected and internationally known name in law enforcement education, through the Monadnock Police Training Council, Inc. The Council's certification standards and procedures, as set forth in its curricula, are amply structured to meet contemporary legal challenges. The Council's expandable baton techniques can be quickly mastered and performed under stress, including the baton-aided, subject-control holds called armlocks. The Council's certification curricula are fully researched in terms of tactical, medical and legal consequences resulting from police intervention. A cadre of competent expert witnesses, who can render an opinion concerning the reasonable use of force as defined by contemporary law enforcement standards and procedures, stand behind all Council Certification programs.

The Council's Philosophy:

Human rights are a critical concern at Monadnock, as they also are at Armor Holdings, The Armor Training Academy, and with you. Nowhere is this more obvious than in Monadnock's certification philosophy of "Protect & Restrain." Twenty-nine years ago, Monadnock, and today the Council, put "Protect & Restrain" to work in the Basic Course certification curricula for the Control Device and PR-24 side-handle batons. The same is true for the Basic and Advanced certification curricula for Monadnock Expandable Batons.

The primary purpose for you to carry a police baton is to protect yourself from a subject's fists, feet, or the occasional blow from a hard, rigid type weapon. The secondary purpose to carry a baton is to enhance the effectiveness of your empty-hand, subject-control holds, most notably the armlock. You may use a simple armlock for a variety of useful purposes such as, but not limited to, restraining a subject long enough so you or a partner can put the cuffs on. It is this two-prong philosophy of "Protect & Restrain" that separates Monadnock programs from most other baton certification programs.

Today, more than 29,000 instructors, 3,000 instructor-trainers and 91 international instructors are teaching Monadnock's "Protect & Restrain" certification curricula in their respective agencies (or assisting at other law enforcement departments). This is a source of great pride for us, at Monadnock, as well as evidence for you to evaluate both our success and longevity as an international educational resource.

1-Day Monadnock Expandable Baton (MEB) Basic Instructor Program

The **Basic Instructor Certification Program** is an 8-hour course dealing with defensive capabilities associated with drawing, holding, blocking and striking with a straight baton – expandable or rigid. Students will acquire a general working knowledge of a straight baton; both technically and tactically, providing them with the minimum skills necessary to conduct agency in-service or academy training.

Prerequisites: Students must be a sworn law enforcement or correctional officer, a state licensed security officer, or active military personnel. This course is not available to civilian personnel. All students must be physically fit for duty and able to perform the physical skills associated with tactical applications with the use of a straight baton – expandable or rigid.

Certification: Students must pass a proficiency test, written test and teaching assessment test to obtain MEB Basic Instructor Certification.

1 Day \$100.00

Course Outline:

Lecture & Discussion Topics

- Use of Force
- The Monadnock Baton Chart
- Stance
- Patterns of Movement
- Balance
- Baton Nomenclature
- Definitions
- Instructor Development to Establish In-Service/ Academy Training & Documentations Skills

Demonstration & Performance Techniques

- Baton Grips
- Baton Methods of Carry
- Baton Positions
- Baton Draws
- Baton Two-Handed Blocks
- Baton One-Hand Strikes
- Baton Two-Handed Strikes
- Baton Retention

2-Day Monadnock Expandable Baton (MEB) Advanced Instructor Program

The **Advanced Instructor Certification Program** is a 16-hour course dealing with defensive capabilities associated with drawing, holding, blocking, striking and subject-control holds with a straight baton – expandable or rigid. Students will acquire a general working knowledge of a straight baton; both technically and tactically, providing them with the minimum skills necessary to conduct agency in-service or academy training.

Prerequisites: Students must be a sworn law enforcement or correctional officer, state licensed security officer, or active military personnel. All students must be physically fit for duty and able to perform the physical skills associated with tactical applications with the use of a straight baton – expandable or rigid.

Certification: Students must pass a proficiency test, written test and teaching assessment test to obtain MEB Advanced Instructor Certification.

2 Days \$200.00

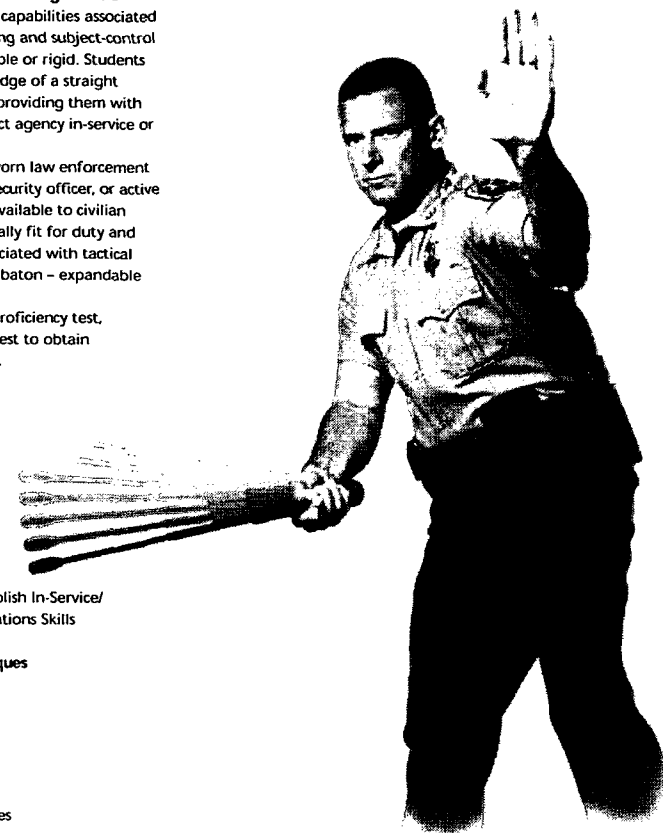

Course Outline:

Lecture & Discussion Topics

- Use of Force
- The Monadnock Baton Chart
- Stance
- Patterns of Movement
- Balance
- Baton Nomenclature
- Definitions
- Instructor Development to Establish In-Service/ Academy Training & Documentations Skills

Demonstration & Performance Techniques

- Baton Grips

- Use of Force
- The Monadnock Baton Chart
- Stance
- Patterns of Movement
- Balance
- Baton Nomenclature
- Definitions

Demonstration & Performance Techniques

- Proper Grip
- Baton Methods of Carry
- Baton Positions
- Baton Draws
- Baton One-Hand Blocks
- Baton Two-Handed Block
- Baton One-Hand Jabs, Chops & Spins
- Baton Two-Handed Jab
- Baton Retention

Monadnock Certifications:

Recertification: All Monadnock certifications are valid according to the recertification policy established by senior agency/department management. Monadnock provides appropriate certification procedures called Option #1 or Option #2 that support senior management's recertification policy. Option #1 is an in-person recertification procedure while Option #2 is a procedure that credits agency/department Monadnock teaching and certification activities.

An Armor Holdings Company

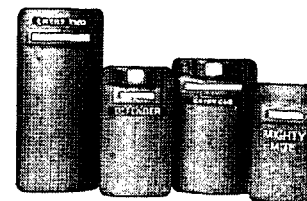

Certified Operator's Ballistic Shield Program

The Armor Training Academy is proud to offer Certified Ballistic Shield Operator's Training Courses for sworn law enforcement or correctional officers, state licensed security officers, or active military personnel.

Course Outline:

The class includes classroom and hands-on instruction and will provide instruction on the following topics, among others:

- Introduction to Ballistic Hand Shields
- Basic Hand Shield Deployment
- Basic Shield Needs
- Fundamental Clearing Techniques
- Advanced Team Tactics
- Stacking
- Multiple Shooters
- Officer Down Rescue / Victim Recovery

Who Should Attend

Personnel assigned to, or who may work with, ballistic shields, as well as those considering the purchase and use of this type of equipment. Basic firearms proficiency is a prerequisite.

Student Equipment

Attire is full duty callout gear, including ballistic helmet and vest. Eye and hearing safety equipment are required. Officers should bring ballistic shield, if available. Handgun ammunition is required. Long gun ammunition is optional. A second handgun and/or duty rig on support side is a desired option, as are protective masks.

Fee

Tuition is \$295.00 per student.

FOR COURSE CALENDARS AND REGISTRATION INFORMATION, VISIT

www.armorholdings.com/products/tra/index.htm OR CALL 800-733-3832

NARCOTICS IDENTIFICATION

The NIK® Self-Training Courseware is the original Narcotic Identification Kit training program. The only program ISO 9000 tested and approved means that each officer who receives a NIK® Self-Training certificate is fully trained and prepared to defend the integrity of the narcotic identification tests.

The NIK® Self-Training Courseware is designed for cost efficient and effective training. Because you decide when and how often to train personnel, third-party training is unnecessary.

The Courseware consists of the following components:

Video Training Tape

Training video entitled "Field Testing With The NIK System" is available in VHS and 3/4 AV tapes. Available in English and Spanish. PAL format also available.

Audio Cassette

A 17-minute audio tape entitled "10 Points To Better Field Testing." Available in English and Spanish.

NIK Instructor Pac

A practical assortment of the more commonly used NIK Field Tests provides for great flexibility in training and field applications.

Drug Identification Bible

715 pages of Tablet and Capsule Imprints, CSA explained, four-color photos, slang and much more.

Polytesting Manual

Full-color manual aids in the identification of the 36 commonly abused narcotics, drugs and hallucinogens.

FLEX-CUF®

The Red Training FLEX-CUF is used over and over. Master various restraining techniques while minimizing costs.

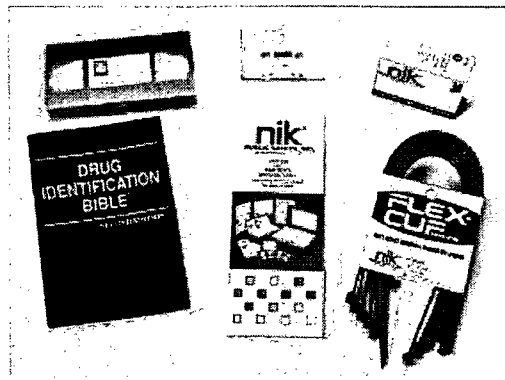

Identidrug Charts

Full-color 24 x 37" wall chart and 7 x 11" desk chart aids in drug screening and identification.

Training Manuals

Full-color, step-by-step instructions on how and when to use our Narcotic Identification Kits, how to read results and where to get additional information.

Cost: Full Courseware - \$399.00
